CVN-77 Degaussing system is a unique, one-of-a-kind degaussing system not used on any other Naval Vessels. POLYAMP is the manufacturer of the system with proprietary rights to both hardware and software used in the system. Controlled Systems holds a Limited Rights contract with POLYAMP under contract #4500133607

The requested material represents the minimum requirements of the government.

The services requested from Controlled Systems is for troubleshooting software and hardware equipment for the degaussing system. Ship's Force does not obtain the technical skills and equipment to troubleshoot and repair what is required to restore the system to operational use. The degaussing system is mandatory for use especially in the current deployment. Without the degaussing system or in its current configuration, the magnetic signature of the ship is increased making the ship more susceptible to mine attraction.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

XXX The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.
